

Gentrol[®] Complete

Aerosol

- Combination of Insecticide and an Insect Growth Regulator
- Breaks the Life Cycles of Listed Pests
- Low Odor

A BROAD SPECTRUM INSECTICIDE THAT KILLS: German Cockroaches, Drain Flies, Fruit Flies, Stored Product Pests, Ants (Excluding Fire Ants, Pharaoh Ants, and Harvester Ants), Carpenter Ants, and Spiders (Excluding Black Widow and Brown Recluse Spiders)

FOR USE IN: Homes, Apartment Buildings, and the Food and Non-food/feed Areas of Hotels, Restaurants, Stores, Warehouses, Office Buildings, Schools, Nursing Homes, Hospitals, Industrial Buildings, Vessels, Rail Cars, Trucks, Trailers, Garages, Kennels, Out Buildings, and Barns

SPECIMEN LABEL

ACTIVE INGREDIENT:

Lambda-Cyhalothrin (CAS #91465-08-6)..... 0.05%
 (S)-Hydroprene (CAS #65733-18-8)..... 0.36%

OTHER INGREDIENTS*:..... 99.59%

TOTAL:..... 100.00%

* Contains petroleum distillates

EPA Reg.No. 89459-84

Ⓝ 11623-GA-2 Ⓝ 33595-MO-4

Circled letter in front of the EPA Est No. corresponds to the first letter in lot number on bottom of container.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION**

Avoid contact with skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Wear long-sleeved shirt and long pants, socks, shoes, and gloves.

Personal Protective Equipment (PPE):

Applicators and other handlers must wear

- Long-sleeve shirt
- Long pants
- Shoes and socks
- Gloves

User Safety Requirements

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

FIRST AID	
IF ON SKIN	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
IF SWALLOWED	<ul style="list-style-type: none"> • Immediately call a poison control center or doctor. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give any liquid to the person. • Do not give anything by mouth to an unconscious person.

(continued)

Note to Physician: Contains petroleum distillate. Vomiting may cause aspiration pneumonia.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For additional information on this product, (including health concerns, medical emergencies or pesticide incidents), you may also call 1-800-248-7763, 24 hours per day, 7 days per week.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130° F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ THE ENTIRE LABEL PRIOR TO USE. USE STRICTLY IN ACCORDANCE WITH ALL USE RESTRICTIONS AND DIRECTIONS.

GENERAL INFORMATION: Gentrol[®] Complete Aerosol kills ants (excluding fire ants, pharaoh ants, and harvester ants), carpet beetles, German cockroaches, crickets, drain flies, earwigs, firebrats, flour beetles, fruit flies, pillbugs, silverfish, sowbugs, spiders (excluding black widow and brown recluse spiders), stored product pests (Indian meal moths, rice moths, tobacco moths, red flour beetles, confused flour beetles, lesser grain borers, merchant grain beetles, saw-toothed grain beetles, warehouse beetles, cigarette beetles, and Dermestid beetles) in buildings and structures and on modes of transport. Permitted areas of use: apartment buildings, homes, hospitals, nursing homes, grocery stores, hotels, industrial buildings, laboratories, mausoleums, motels, private residences, schools, stores, utilities, warehouses, in food and non-food areas of restaurants,

food manufacturing, processing, and servicing establishments, and on vessels, rail cars, buses, trucks and trailers, recreational vehicles, do not apply in aircraft cabins.

Gentrol® Complete Aerosol contains a combination of an insecticide and IGR for kill of listed adult insects and residual control against future generations of listed pests. Gentrol® Complete Aerosol contains GENTROL® Insect Growth Regulator (IGR). The IGR disrupts the normal development of immature cockroaches, drain flies, fruit flies, and stored product pests (examples of these pests include: Indian meal moths, rice moths, tobacco moths, red flour beetles, confused flour beetles, lesser grain borers, merchant grain beetles, saw-toothed grain beetles, warehouse beetles, cigarette beetles, and Dermestid beetles). Cockroaches exposed to the IGR will become adults incapable of reproducing, Gentrol® Complete Aerosol also disrupts the normal life cycle of drain flies, fruit flies, and stored product pests; thus, killing these insects during the pupal stage. In both cases, the cycle of infestation ends.

Application method

Crack and Crevice Treatment

For crack and crevice treatment, use extension tube, if available, to apply product. Insert extension tube into actuator and spray directly into cracks, crevices, holes and other small openings. Press valve down and spray surface until slightly wet. Apply at a rate of 1 second per linear foot for heavy infestations and at 1 second per 2 linear feet for light infestations. Use the higher rate of 1 second per linear foot for German cockroaches and carpenter ants. Gentrol® Complete Aerosol may be sprayed upright or upside down to facilitate application. Avoid heavy or excess applications as Gentrol® Complete Aerosol may produce slick surfaces. Gentrol® Complete Aerosol is generally non-staining but in situations that are questionable or made of fabric, apply to a small area and observe. For use against ants (excluding fire ants, pharaoh ants, and harvester ants), carpet beetles, crickets, drain flies, earwigs, firebrats, flour beetles, fruit flies, pillbugs, silverfish, sowbugs, stored product pests (Indian meal moths, rice moths, tobacco moths, red flour beetles, confused flour beetles, lesser grain borers, merchant grain beetles, saw-toothed grain beetles, warehouse beetles, cigarette beetles, and Dermestid beetles) in closed voids, calculate the void's cubic area and treat at the rate of 3-6 seconds/ 3 ft³. Several holes may be required in long-running voids.

Spot Application

For spot treatments, use this product with or without an extension tube. Hold container with nozzle pointed away from you, and apply at 10"-12" above the surface to be treated. Apply directly on listed insects where possible.

Applications in food service, processing and handling establishments

Apply Gentrol® Complete Aerosol as a spot or crack and crevice treatment in both food and non-food areas of food handling establishments. These establishments are defined as: places other than private residences where exposed food is held, prepared, processed, or served. It also includes areas where food items are: received, prepared, packaged, and stored, edible waste storage, as well as enclosed food processing systems (mills, dairies, etc.).

In Federally inspected meat and poultry plants, the facility must not be in operation when this product is used, regardless of the method of application. In non-Federally inspected facilities, spot and/or crack and crevice application may be used while the facility is in operation provided exposed food is covered or removed from the area being treated prior to application.

Do not apply directly to food or food preparation surfaces, or utensils. Foods must be covered or removed prior to applications. Clean food contact surfaces and equipment with an effective cleaning compound and rinse with potable water before using. Cover all food contact surfaces (e.g., equipment; benches, shelves - areas where exposed food may be handled, held, prepared, processed, or served). If left uncovered, thoroughly clean these areas after treatment by a method capable of removing chemical residues.

Limit individual spot treatments to an area no larger than 20% of the total surface. Do not exceed an area of 2 sq ft for individual spot treatments.

Central Garden & Pet Company, 1501 East Woodfield Road, 200W, Schaumburg, Illinois 60173

Food handling and serving areas: Apply as a crack and crevice or spot treatment directly into cracks, crevices, voids (excluding German cockroaches and carpenter ants) or onto surfaces where insects are resting or harboring, excluding food prep or handling surfaces. Apply to different elements of construction; between equipment and floor, pipe chases, under and behind refrigerators, stoves and sinks, equipment legs and bases.

Applications may also include non-food areas such as garbage rooms, lavatories, floor drains, entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage areas (after canning or bottling). Apply as a crack and crevice or spot treatment to selective surfaces such as baseboards, under elements of construction, into cracks and crevices. Do not treat surfaces likely to be contacted by food.

For control of drain flies and fruit flies: apply Gentrol® Complete Aerosol to areas of fly breeding. For drains, apply product into and around the downspout and catch basin area. Coat these areas thoroughly as fly larvae develop in the scum buildup on the sides of drain pipes. Reapplication may be made at 2-4 week intervals depending upon the severity of infestation.

General pest control

To kill German cockroaches, ants (excluding fire ants, pharaoh ants, and harvester ants), crickets, earwigs, firebrats, silverfish, spiders, (excluding black widow and brown recluse spiders) small flies (fruit and drain flies) and sowbugs: Apply as a crack and crevice or spot treatment to areas where these pests crawl and hide, especially on hidden surfaces around sinks and storage areas, along and behind baseboards, around doors and windows, behind and under refrigerators, cabinets, sinks and stoves, on the underside of shelves, drawers, and bookcases.

To kill ants (excluding fire ants, pharaoh ants, and harvester ants): Spray around ant trails, doors and windows and other places where ants enter premises. Spray around nests hidden under steps, brickwork, concrete, etc. Break apart accessible nests and spray on and around debris.

To kill spiders (excluding black widow and brown recluse spiders): Apply as a crack and crevice or spot treatment along and behind baseboards, to window and door frames, corners, pipes, storage localities, attics, crawl spaces and other areas over which these pests may crawl.

To kill earwigs, pillbugs, and sowbugs: Apply as a crack and crevice or spot treatment around doors and windows, along and behind baseboards, and in storage areas where these pests are found.

To kill pantry pests - Exposed stages of saw-toothed grain beetles, Indian meal moths, flour beetles (red and confused): Treat exposed stages. Remove all foodstuffs, utensils and shelf paper from area to be treated. Discard used shelf paper and any infested foodstuffs. Apply spray to shelves and in cracks and crevices behind and under cupboards and cabinets. Allow spray to dry prior to replacement of shelf paper, food and utensils.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. **PESTICIDE STORAGE:** Do not store near heat or open flame. Store in cool, dry (preferably locked) area that is inaccessible to children and animals. **PESTICIDE DISPOSAL AND CONTAINER HANDLING:** Do Not Puncture or Incinerate! **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions.
